## VetSource Awarded Vet-VIPPS Certification

**Portland, OR:** VetSource, a leading provider of veterinary sponsored home delivery services, is pleased to announce that as of June 8th, 2011, it has earned Veterinary-Verified Internet Pharmacy Practice Sites (Vet-VIPPS) certification from the National Association of Boards of Pharmacy (NABP).

Recognized for its innovative e-scripting tools and compliance building programs, VetSource's new status as *Vet-VIPPS Certified* identifies VetSource as a fully licensed pharmacy in compliance with all applicable state boards of pharmacy statutes. VetSource has met all Vet-VIPPS criteria in an on-site inspection of VetSource's pharmacy as well as a rigorous review of its policies and procedures regarding patient confidentiality, prescription authentication, security and processing, quality control, and pharmacist consultations.

"Earning Vet-VIPPS certification demonstrates our commitment and dedication to providing the highest quality pharmacy experience for the veterinary hospitals and pet owners we serve" says Kurt Green, CEO at VetSource. "Vet-VIPPS certification reinforces the fact that VetSource continues to be a trustworthy and reliable pharmacy that holds safety and quality to the highest standards."

VetSource is now a Vet-VIPPS certified site and displays the Vet-VIPPS hyperlink seal of approval. The seal assures our customers that we are upholding the highest pharmacy standards. Our veterinary customers and their clients can click on the seal to find more information about the Vet-VIPPS program or the NABP Pharmacy. The NABP can also be contacted directly at (847) 698-6227, or by logging on to the NABP Web site at [www.nabp.net](http://www.nabp.net).

VetSource services are marketed throughout the United States via its partnership with Webster Veterinary (a Patterson Company).

###

**About VetSource:** VetSource, is a North American leader in the home delivery of companion-animal pharmaceutical products and pet nutrition. The company works with veterinarians to enhance the veterinarian-client-patient relationship by supporting practitioners through professional pharmacy services.
